

WIZZZ

BRAND GUIDELINES

A trading name of Gedker Ltd

hello@wizzz.co.uk

wizzz.co.uk

The Logo

The WIZZZ wordmark is the core of the brand. It uses Metamorphous, a gothic display face, with a continuous ember-to-red gradient flowing across the word. The font is embedded in the SVG so it renders identically everywhere.

The wordmark 'WIZZZ' in a gothic display font, featuring a continuous gradient from orange to red.

PRIMARY (GRADIENT)

The wordmark 'WIZZZ' in a white gothic display font on a dark background.

MONOCHROME (WHITE)

The wordmark 'WIZZZ' in a black gothic display font on a white background.

MONOCHROME (BLACK)

A stylized 'W' mark in a gothic display font, featuring a continuous gradient from orange to red.

W MARK (GRADIENT)

Use the gradient version wherever possible. Use white on dark backgrounds or single-colour print. Use black on light print. Use the W mark for favicons, app icons and any space too small for the full wordmark.

Colour

The WZZZ palette is fire. Ember to flame to orange to red. The gradient is the signature. Use it boldly.

Ink is the background. Paper is the text. The four fire colours form the gradient. Line and Muted are for borders and secondary text.

The Gradient

Typography

DISPLAY — METAMORPHOUS

WE BUILD BOLD THINGS

Google Fonts · Used for headings, logo, and all display type

BODY — SPACE GROTESK

Space Grotesk carries all body copy, UI labels, navigation, and supporting text. It is geometric but warm, and holds its own next to Metamorphous without competing. Weights: 400, 500, 600, 700.

Google Fonts · Used for body, UI, and all non-display text

Never use Metamorphous for body copy. It is a display face only. Never use Space Grotesk for the logo or major headings. The pairing is deliberate.

Usage Rules

- 01 Always use the official SVG logo files. Do not recreate the wordmark in text or with a different font.
- 02 The gradient must flow continuously across the word, not restart inside each letter.
- 03 Keep clear space around the logo equal to the height of the W on all sides.
- 04 Never stretch, skew, or rotate the logo.
- 05 Never change the gradient colours or stop positions.
- 06 Never place the gradient logo on a busy background without sufficient contrast. Use the white version instead.
- 07 Never add drop shadows, outlines, or effects to the logo.
- 08 The W mark is for small spaces only (favicons, app icons, avatars). Do not use it as a primary logo.
- 09 Minimum logo size: 120px wide for the wordmark, 32px for the W mark.
- 10 WIZZZ is always uppercase. Always with three Zs.

Assets

All assets are in the **brand-pack/** folder:

logos/ — SVG and PNG exports of all six logo variants

fonts/ — Metamorphous and Space Grotesk WOFF2 files

social-banner-* — LinkedIn, Twitter/X, Instagram banners
